This challenge is this year will be just that, a challenge. If you are not an experienced shooter this challenge may not be for you, this will be a lot of fun and /or frustration.

There will be an **open controlled pistol range** for those that just want to shoot still targets and followship (.22 is allowed for this). There will be also be an opportunity to do **trap shooting** with **shotguns**. For trap, there will be a limited number of shots per person. Bring your own shotgun and shells (target loads only, please). There also will be a 3D **bow range** set up away from the pistol ranges. Bring your own **bow and arrows**.
